Education

August 2022 - Expected May 2026

Purdue University, West Lafayette, IN – *B.S. in Computer Science*

Relevant Coursework: Problem Solving and Object Oriented Programming (CS 18000), Foundations of Computer Science (CS 18200), Programming in C (CS 24000)

Current Courses: Computer Architecture (CS 25000) and Data Structures (CS 25100)

Skills/Programming Languages

Advanced: Java, C
Intermediate: C++
Basic: Python, SwiftUI, HTML, CSS

Work Experience

April 2023 - Present

France A. Córdova Recreational Sports Center – *Operations Assistant*

West Lafayette, IN

- Job entails assisting the everyday operations at Purdue's student gym, which includes laundry, assisting patrons, and managing gym equipment.

Projects

Fall 2022

CS 18000 Group Project

- This project involved working with a group of 4 other students to design an application using Java to store and manage appointments for a user. The features include both a buyer and seller interface, ability to store many different appointments avoiding overlapping times, concurrency between multiple users, and client-server communication to store data.
